

## The Flipped Classrooms

### Workshop Description:

So students sometimes seem uninterested during presentations/lectures? Join us as we review techniques to encourage students to gain theoretical knowledge outside the classroom allowing you and your students to spend your class time applying the concepts through active learning. Get away from being “the sage on the stage” and become “the guide on the side”. Find out why everyone’s talking about the flipped classroom approach and why it’s being utilized more and more by faculty everywhere.

**Facilitator:** Steve Minten, Lambton College
