Selecting Tools for your Blended Learning Roadmap

Workshop Description:

So now that you've created a road map for your blended learning course design, what comes next? In this workshop you'll have the opportunity to extend your learning by incorporating technology into your lessons by selecting a suite of tools that will enhance the learning experiences of your students.
Come to class with your draft road map created in Blended Learning Basics and your course outline.

Learning Outcomes:

- Explore a suite of tools that support student success in blended learning environments.
- Integrate technology into the curriculum by selecting appropriate tools and methods in line with learning outcomes.
- Make connections between the selection of technology and its ability to enhance the student learning experience.

Facilitator: Chris McCrory, Mohawk College
