

Active Learning – Implementation Plan

This activity is being used to explore, collect, and share the active learning activities that we might want to use in our classrooms.

Instructions:

1) Each table will begin with a package (either A,B,C,or D).

- a) Open the small envelope(s) located inside the large package and read the various active learning strategies inside.
- b) After reading the strategies, each group member can discuss the strategy they like the best and how they could use it in their individual classroom.
- c) As a group, choose the best implementation plan and record it on the Active Learning Implementation Plan sheet.
Please only record your answer on the sheet labelled Round 1.

2) Rotate the package to the table on your left and repeat the process above with your new package. *Please only record your answer on the Active Learning Implementation Plan sheet that corresponds with the round we are on.*
