

Integrating the Flipped Classroom Approach into your Classrooms

Steve Minten

Workshop Description:

Flipping the classroom allows you to provide students with theoretical knowledge outside the classroom so you can spend time applying these concepts using active learning strategies. Learners can view videos and interactive demonstrations provided by the instructor anywhere, anytime at their own pace. Students will come to class prepared to work collaboratively on assignments and will benefit from teacher and peer support. This session will provide focus on what “flipping” a classroom means and the inherent advantages it can provide the learner. This workshop is intended to assist participants in developing skills and techniques to flip their own classroom. Participants are encouraged to bring a Wi-Fi capable mobile device to this session.

Learning Outcomes:

- Identify the benefits and challenges of flipping the classroom
- Identify techniques and technologies that can be used to flip a classroom

Facilitator: Steve Minten, Lambton College
